

Wooden Musical Animals

W H O L E S A L E

www.globalpremiumtrading.com

Sustainable

At Global Premium Trading, we believe it's important to responsibly source our materials. That's why, when it comes to choosing the woods we use to build our products, we've spent quite a bit of time researching which option is both the most beautiful but also sustainable.

We're happy to say that our mango tree wood and Monkeypod raintree wood are both eco-friendly and sustainable. The mango tree wood that we use have been cut down only after they've produced bountiful harvests and are no longer capable of producing mangoes. If it were not for transforming the felled mango trees into furniture and the goods here at Global Premium Trading, they would be left to rot. Monkeypod raintree wood is also sustainable, and it's not on the IUCN Red List of Threatened Species.

As such, you can trust that when you purchase our goods, you know that you're purchasing a sustainable and beautiful option. We can't wait to see what you choose. Happy shopping!

WOODEN FROG

NATURAL WOODEN FROG

Gentle use the small mallet and stroke its back.

- Size 1.5" (2.5"x1.5"x1.5") FR05N
